- **AI & Automation Tools:** Claude, GitHub Copilot, Playwright

EXPERIENCE

Bazaarvoice | Edmonton, AB - *Software Engineer*

MAY 2021 - PRESENT (5+ YEARS)

- **Engineered agentic AI solutions and DevEx initiatives** using Claude, GitHub Copilot, and Playwright to build an E2E automated widget testing suite and pioneer a zero-effort install project, reducing QA cycles and decreasing client onboarding time by 90-95%.
- **Led end-to-end technical implementations** for cross-platform SDKs (web, iOS, Android) across 50+ IR 500 clients, directly boosting CVR and RPS by 3%.
- **Served as Team Lead and Subject Matter Expert (SME)** for widget architecture, guiding clients through complex technical installations and mentoring team members.
- **Enhanced system reliability and error visibility** by leveraging Grafana and Sumo Logic for proactive error monitoring, log diagnostics, and daily automated telemetry.

KCVS | Edmonton, AB - *Lead Web Developer*

MAY 2019 - MAY 2021 (2 YEARS)

- **Modernized legacy systems** by refactoring codebase architecture from AppleScript to Javascript and developing climate change web apps within a collaborative team of university faculty and undergraduate researchers.
- **Partnered with the City of Edmonton** to design and deploy an interactive web portal for youth to explore and engage with the city's Community Energy Transition Strategy.

EDUCATION

The King's University | Edmonton, AB - *Bachelor of Science: Computer Science*

2017 - 2021 | Minor: English
